Please Support the Consensus Plan -- FCC WT Docket #02-55

RECEIVED

APR - 8 2004

Federal Communications Commission Office of the Secretary

Commissioner Jonathan S. Adelstein Federal Communications Commission 445 12th Street, SW Washington, DC 20554

Dear Commissioner Adelstein,

Emergency response communications have never been more critical, or more difficult.

That's because of a common problem on police, fire and EMS

radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

Linda Rose 1125 Oak Street Springfield, Ohio 45505-3157
